

Maricopa County 2004-2008 Health Status Report

January 2011 Errata*

2004-2008 Cases of Tuberculosis to Maricopa County Residents					
	2004	2005	2006	2007	2008
Tuberculosis Cases	286	169	171	171	109
Tuberculosis Rate	5.3	4.6	4.5	4.4	2.8

* These tables show the 2004-2008 number and rate of Tuberculosis cases per 100,000 residents. The Tuberculosis numbers for 2008 were not updated, making the counts and rate for 2004-2007 one year off (the count and rate for 2008 were for 2007, 2007 for 2006, etc). Total morbidity counts remain as published.

This correction applies to the following reports published in June 2010:
